Profile

I have spent the last 10 years working within the IT industry starting with basic computer programming in 1999. Since then I have become experienced with most aspects relating to web development including database development and software design. I have succeeded in becoming a leading member of the IT staff within my present company as well as being a very good team member.

Skills

- .ASP/ .NET / .HTML certified programmer with fast ,solution focused, development application skills
